Premium engineered quartz

Avant Quartz is an environmentally friendly material close to natural stone. Each Avant Quartz slab has become the embodiment of experience, professionalism and the latest trends in the world of design..

Avant Quartz is an environmentally friendly material close to natural stone. Each Avant Quartz slab has become the embodiment of experience, professionalism and the latest trends in the world of design.

Avant Quartz collections include the best marble and granite decors and embody the latest global trends.

The Digital Print collection is a milestone in the production of quartz slabs. Thanks to the Nano-Link deep printing technology, the authenticity of natural stone colours, a deep 3D effect and increased scratch resistance are achieved. The colour and pattern of the slab remain unchanged for years

Avant Quartz offers slabs with traditional glossy and mat surfaces (H), as well as with «leather» surfaces (L).

Open the door to the world of sophisticated design with the impeccable beauty of Avant Quartz natural colours and decors!

Avant Quartz is certified for the manufacture of countertops and interior cladding. .

Slab size:
3200x1600x20 mm (Jumbo)

Durability
