

NOISE-FREE AESTHETICS

Perfect stainless steel sinks

ABOUT INOA

INOA provides an exclusive product range that includes stainless steel sinks and accessories.

The brand INOA came into being as a result of a relentless pursuit for innovation and excellence by ARCHITYPE.

Being aware of the needs and aspirations of its customers and partners, ARCHITYPE experts carefully researched the market trends aiming at creation of a brand that would meet global standards of quality and functionality.

Each INOA product is a combination of carefully thought-out design, high-quality materials and advanced technologies.

Sinks and accessories by INOA are made of high-quality stainless steel ensuring their durability, scratch resistance and ease of care. The ergonomic design and functionality will complement the interior of any modern kitchen.

A key feature of Proline sink range is the cutting-edge water noise absorption technology, which makes the sink use more comfortable.

High quality stainless steel

Durability

Functionality

10-year warranty

Innovative water noise absorption technology

Scratch resistance

Elegant design

Ease of care

INOA PROLINE MODEL RANGE IS:

1 Installation accuracy

Each sink comes with a countertop cutting template, providing a flawless fit and reducing the risk of damage.

2 Convenience

The complete set with branded siphon and overflow saves time, simplifies installation and reduces additional costs.

3 Versatility

Pre-welded clips provide numerous mounting options.

4 Comfort

Innovative noise-absorbing technology reduces water noise, making the sink use as comfortable as possible.

5 Environmental friendliness

All sinks are supplied in eco-friendly packaging with cardboard corners (instead of plastic ones) and a textile covering.

6 Warranty

All models come with a 10-year manufacturer's warranty, thus ensuring high quality of the product.

SINK CARE

INOA sinks are made of high-quality materials resulting in their durability and aesthetic appearance.

For proper care:

- Wipe clean the sink regularly with soft fabrics to avoid dirt buildup.
- For deep cleaning, use mild detergents or non-abrasive polishing pastes. Avoid harsh chemicals or abrasive sponges.
- After cleaning, be sure to rinse the surface with water and wipe dry with a soft fabric.
- Hint: Use silicone polishers to keep the immaculate condition of your sink for a long time.
